**UPDATE: April 16, 2022: CORRIDOR OF HOPE**

**Our Partner Melissa was inside Ukraine this past week. Over the last several weeks she has visited Poland and Moldova as well. She has seen and experienced the war, the devastation, heard stories, and has been part of the distribution process and seeing the impact. A very brave women.**

**She has been able to secure extremely efficient and committed organizations and teams that are really unselfishly serving those in need both inside and outside of Ukraine.**

**Here is her video:**

**<https://youtu.be/9CSKwxFEfaA>**

**CRW is just one small part of this vast response- but we are critical. We will continue to gather and work and load - as bookings become available. We have asked for any bookings that might come available- and we are more than ready.**

**CRW is indeed grateful**

**to all who have donated, and continue to donate  
to those who are picking up and dropping off  
to those who are working to sort and pack under less than ideal  
conditions  
to those who are packing and packing and packing some more  
to those who find spots for packed boxes  
to those who are and will be loading the container  
to those who provide shipping logistics for us  
to those who receive our containers and dealing with all the import  
regulations  
to those who distribute the goods whenever needed, but whatever means  
they can- at great cost. Some have paid the ultimate cost for their  
services. Please be in prayer for their families during these days.  
for this amazing opportunity to bring a little touch of HOPE in this crisis  
CRW will continue to do what we can, with you help.**

**Thank you for your partnership.**
